

Email from a client in Sharon, MA

Hi Kathy,

I want to share with you that our garden looks BEAUTIFUL. From the timing of the different blooms, to the colors, to the variety of heights - we just love it. And we have received many compliments on the garden.

I also wanted to let you know that the 2 rhododendrons that had originally been planted in the front of the house that looked half dead - and that you replanted on the side of the house are in full bloom. A picture of one of them is attached.

Thanks again for your creativity, thoughtful design and expertise.
